

Things don't always go as planned.

And when they don't, you're not on your own. There is an entire community of physicians who are pulling for you, wanting to offer support during this challenging time.

So we created the Physicians Insurance Peer Support Program

Many of your peers have dealt with the aftermath of unanticipated outcomes of patient care. These seasoned and compassionate professionals are ready to talk with you, peer-to-peer. They know how helpful it is to share the experience with someone who has already walked this path.

Our Peer Support Program is offered as part of our Claims Department Services to help Members deal with the impact of adverse events. This program features fellow Member physicians who understand the impact of such events on your personal and professional life, and have been trained to reach out to colleagues following an unanticipated outcome.

This support is meant to help you process the effects of an unanticipated outcome. Participation is voluntary, and Members are free to request or decline this support as they wish.

Your Peer Support Consultant Is...

- Compassionate, thoughtful, discreet
- Specially trained in peer support
- Ready to listen

Your Peer Support Consultant Is Not...

- A counselor or therapist
- Reviewing medical records or giving clinical opinions
- Providing a legal opinion
